PROJECT DESCRIPTION

Purpose :The main purpose of maintaining database for Club Management System is to make their platform available to users very efficiently and an ease to the Club Royal to provide their services to the users. The main objective of this project is to allow the users to navigate through various facilities available in the club.

To design a live web application for the Club Management System (Club Royal) to make their platform available to users very efficiently and an ease to the Club Royal to provide their services to the users. The main objective of this project is to allow the users to navigate through various facilities available in the club. The administrator can manage the bookings and availability of various amenities and provide membership to its users. This website contains services like restaurants, banquet halls and club membership. User can take different types of memberships like individual membership, couple membership, family membership, senior citizen membership and corporate membership. Club Royal is a multi-activity centre for sports and entertainment with modern amenities and excellent services. A Gaming Zone, Swimming Pool, Gymnasium, Kid's Play Zone are some of the services provided by Club Royal.

Our system will be maintaining Database for following:

- Book the Banquet hall
- Book the Table at Restaurant
- Take the Membership
- Services provided to users

Amenities and Services:

1. Restaurants
2. Banquet Halls
3. Club Membership

1. Restaurants

- The customer can book a table for dining in at their convenience. A form is provided where the customer can enter their details and book specific time slot on a particular date, confirmation is given to the user at the end of the form.

2. Banquet Halls

- There are four types of Banquet hall which can be booked by the user. They need to fill in their details and book a hall according to the capacity of

guests. The approximate cost and confirmation is mentioned at the end of the form.

- Diamond
- Daffodil
- Lotus
- Regalia

3.Club Amenities and services

The club provides various amenities to the user which they can avail by taking up the membership at our club. The description of all amenities is displayed on the website.

- Swimming pool
- Gymnasium
- Sports
- Kids zone

4.Membership

The customer can choose any type of membership available at the club by filling up the membership form.

- Individual
- Couple
- Family
- Senior citizen
- Corporate

CUSTOMER DATABASE:

When the customers fills and submits any form different queries are generated which store the information into the main customer table and respective form table.
